# Infrastruktur industrien

*Helt særlige krav til software løsninger:*

*Lange horisonter, store investeringer*

*Store datasæt*

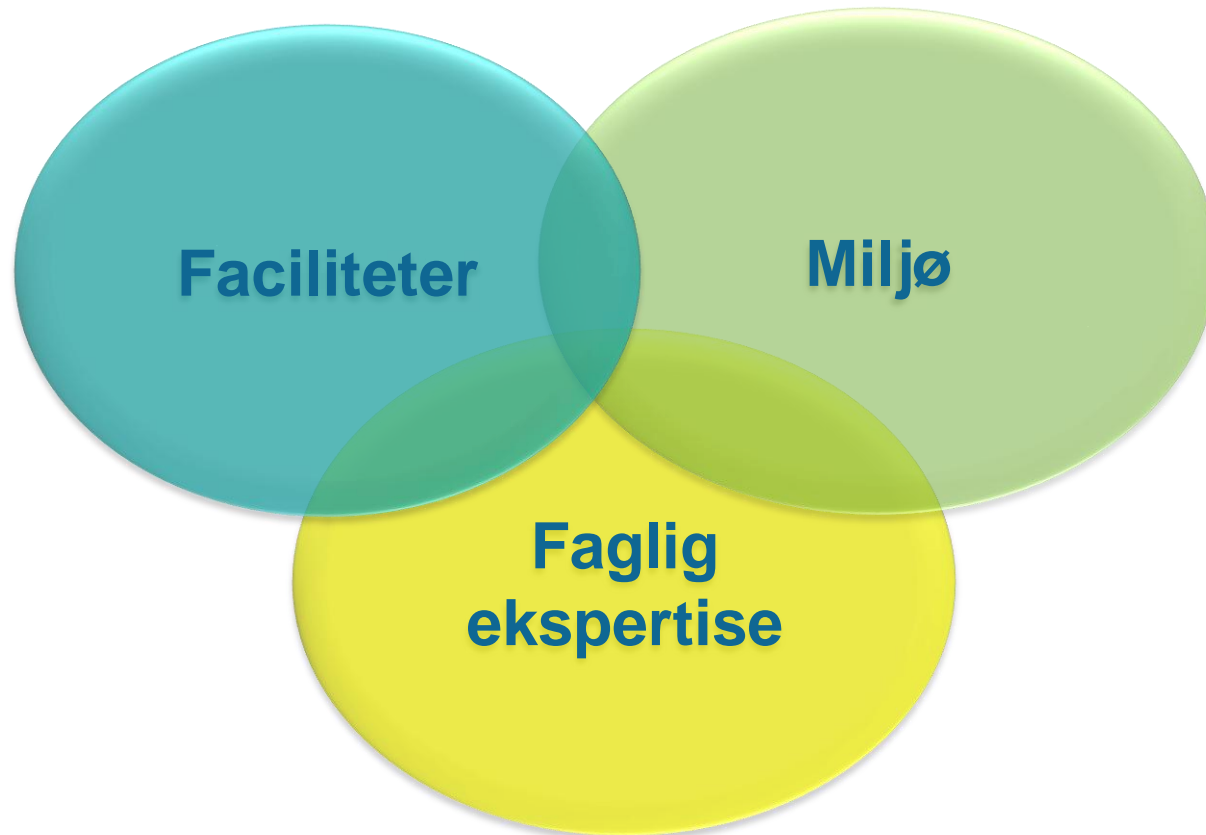

*Distribuerede data modeller*

*Heterogene data typer*

*Komplekse workflows, IP, ansvar, overdragelser*

*Nytænkning kontra "det sikre og velkendte"*

# ***Sustaining* – infrastructure :**

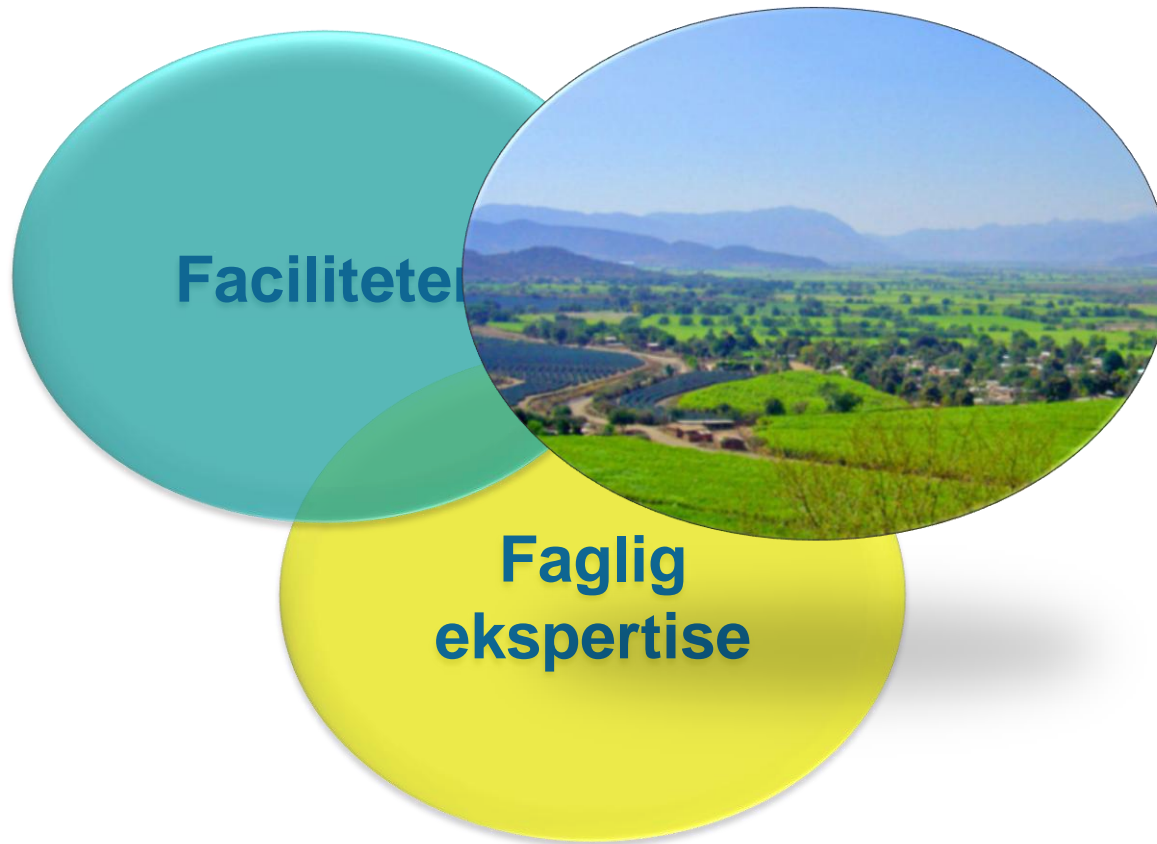

# *Sustaining* – de fysiske faciliteter

# *Sustaining - Miljøet*

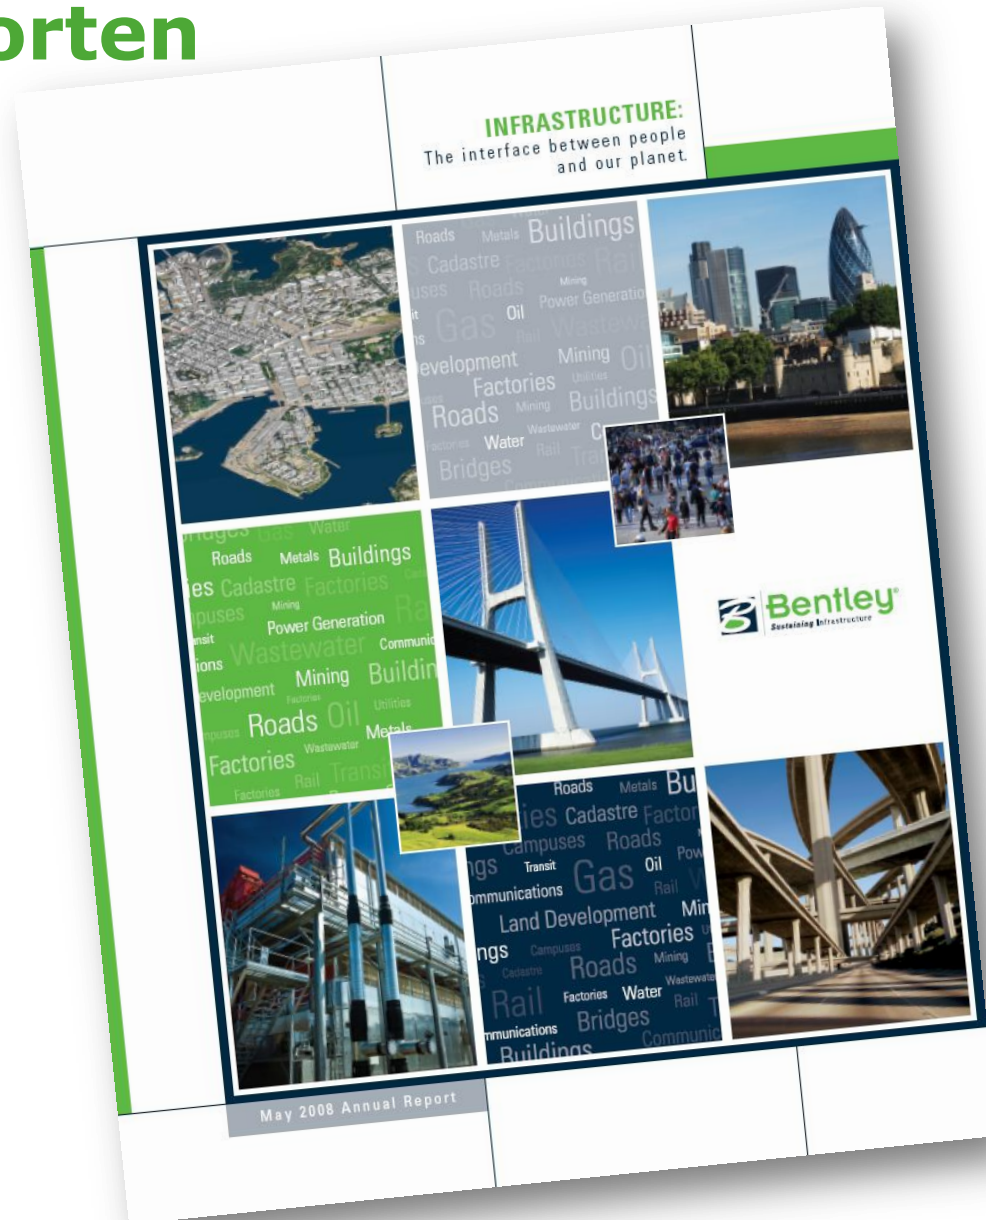

# *Sustaining* – den faglige ekspertise

Hvordan har Bentley det ?  
- midt i den finansielle krise

## *Vores kunder indenfor infrastruktur :*

- *Er i nogle tilfælde ramt af finanskrisen*
- *Og i andre tilfælde forventes netop infrastruktur at blive tilført midler*
  
- *Vores bidrag er bl.a. Et tilbud om 2 års rentefri finansiering af Bentley licenser*
- *Betal 1/3 fra start, endnu 1/3 efter 1 år og den sidste 1/3 efter 2 år.*

### Real-time Assets

What is a real-time asset? From Bentley's point of view, a real-time asset is a fundamental component of infrastructure assets. This is the obvious function of a real-time asset, i.e., the physical assets itself in Bentley's definition, the world ...

### Infrastructure Visualization

Definition: It's a more visually engaging project environment for delivering the world's infrastructure, and is beyond 3D geometry, rendering, and animation. It's visualization integrated with Data (flat, 3D, temporal, Geospatial) Simulation Tools Geometric Design Tools Engineering Analysis ...

### 2007 BE Award Winner: The Banks Group

The Banks Group needed real-time access to design and office documents at many locations. In the past this was achieved using remote copy procedures or a complicated setup of distributed systems and network protocols. But this approach suffered from file locking, missing problems, and ...
